What are Covid-19 Symptoms?

Symptoms of a COVID-19 infection

The most common symptoms of COVID-19 are a new continuous cough and/or a fever/high temperature (37.8C or greater).

A new continuous cough is where you:

- have a new cough that's lasted for an hour
- have had 3 or more episodes of coughing in 24 hours
- are coughing more than usual

A high temperature is feeling hot to the touch on your chest or back (you don't need to measure your temperature). You may feel warm, cold or shivery.

Please note:

Patients or Family Members of those who are 'self isolating' due to Age &/or Co-morbidities only ie are **not** Showing Covid Symptoms, are considered 'non-Covid' for when following the Dental Algorithm
